MANNERHEIM MURDERED 12,000 IN COLD BLOOD, UNITED STATES TOLD IN 1919

It was a good massacre, says Dorothy Thompson, speaking yesterday of General Mannerheim's butchery of nnish workers, their wives and children in 1918.

"The uprising was suppressed by the majority of the Finns," declares Miss Thompson in her sales argument for the Butcher of Helsinki.

President Wilson got a report on Finland and the U. S. S. R. in 1919. It was written by William C. Bullitt, present Ambassador to France. Bullitt told Wilson and the U.S. Senate:

"It is worthy of note that in the White Terror in southern Finland alone, according to OFFICIAL FIG-URES, General Mannerheim executed WITHOUT TRIAL

Then listen to the following editorial, taken from the Milwaukee Leader, July 10, 1919, during the days when Mannerheim was in the public eye:

"It begins to become clear at what a price Finland secured recognition."

"A special correspondent of the Chicago Tribune has cabled that newspaper from Paris that it has been agreed at the peace conference to instruct the British, French, Italian and American charges d'affaires at Heisingfors to urge the Finns to accept Kolchak's request for a combined offensive against Petrograd.

FDR Orders Full Speed in Paring All Social Expenditures

Although all agencies not directly involved in the Administration's huge armament expansion program will be pared to the bone, it is authoritatively learned that the wagehour division in the Labor Department will be one of the worst victims.

In the Administration's frenzied In the Administration's frengied concern over alleged Soviet atrocities in Finland, it is apparently loosing sight of the atrocity of overlong hours and sweatshop wages in the United States.

Should the cut now being planned by the budget bureau take place, enforcement of the minimum standards set by the law will become practically impossible.

The cut will have virtually the same effect as the sweeping Barden amendments to emasculate the Wage Hour act which were pushed in Congress by the Southern Tories at the last session.

As a matter of fact, many observers believe that one of the reasons for the Administration move is to appease the Southern Tories and do away with the possibility of friction inside the Democratic party on proposed amendments to the act. Needed for adequate enforcement of the Fair Labor Standards act during the coming fiscal year is approximately \$10.500,000. But the budget bureau is planning to cut this down to about \$7,000,000.

The cut is more drastic than the figures suggest because the effect of the reduced appropriation will be felt most sharply in the enforcement work of the Wage-Hour division.

Since a substantial part of the Divisions appropriation is needed

British Use of Finnish Air Bases Against U.S.S.R. Bared

"This government has already made secret com-

Yesterday in the Wall Street financial district of New York it was learned that a confidential memorandum writ-

These Finnish airports were built with British and German help at a time when the British and Nazi governments were collaborating against the Soviet Union

Every Lie From Helsinki Is 'Fit to Print' in Times

Rumors Become 'Facts' for Front Page Stories, Facts Are Buried in the Inside Pages in Mad Race to Smear Soviet Union

It is not surprising that the capitalist press is falling over its own feet in lying about the Soviet-Finnish events.

In fact, it is no longer ironic that on the very day that the New "If you want to get the news you must read the Times," this very publication contradicts itself and its vast army of correspondents in its own news columns.

Today's issue of the Times for example, continues to give feverish minence to every "rumored," "reported," "unconfirmed," cock-andbull-story emanating from Helsinki, Copenhagen, Kirkenes and Stockholm (not to mention the variety of colorful canards cococted at the cable desk of the New York Times itself). CLEVELAND CUPBOARDS ARE BARE

Tom Laughlin, Cleveland painter, has been out of work two years. Mayor Burton's statement that thousands were cut from relief "so that the children may eat" doesn't apply to Tom's family of seven. The cupboard (at left) the family is looking into has been bare for a week. Above Tom is shown ladling out the last bit of food the family has—a thin relief soup. Family's last loaf of bread is on the table. They are among 16,000 who are getting no relief whatever.

"No one suggests progress should be retarded, but I stand for the application of progress for the benefit of all the people of the country."

The Mayor insisted jobs can and must be created for those who have none, stating he believed "we can adjust our economy under the present system for at least fifty years."

Queens Non-Party Workers Show C.P. Has Many Friends

By Paul Crosbie

That the workers of America have not been driven away from the Communist Party was well proved in Queens yesterday. A grimy-handed mechanic walked into county headquarters of the Party and said he wanted to see the comrade in charge.

As none of the county committee members were on hand he was referred to an Assembly District organizer to whom he explained that he and some of his shopmates had decided to do something for the Party.

To all inquiries as to who he was, this worker would only say that he was a friend of the Party.

To prove this he handed over \$85 that he had collected, and promised that more would follow.

Several comrades in Queens, who thought they couldn't raise money because of the "hostility" that was said to have been roused against the Party were embarrassed to think that such a center of Party support could exist without their knowledge.

MANNERHEIM'S

Why is there so little mention in the press of Baron Mannerheim, Field Marshal of the Cajander-Ryti forces

The press has good reasons for this strange silence. It does not want the American public to recall the atrocities committed against the Finnish people themselves by this Czarist murderer back in 1918 and many times since.

Freedom for Small Nations?— Don't Make Halifax Laugh

What has become of the advertised war "against Hitlerism"?

Remember when mankind was supposed to die in the trenches to "fight Hitlerism"? So loudly have the English people begun to question the British war aims that Lord Halifax had to make a long speech about them to the House of Lords on Tuesday.

Halifax spoke about Hitlerism. But he didn't attack it. Instead, all the vials of his wrath went against the Soviet Union. His tender tears did not go for the oppressed masses of Czechoslovakia, Austria, Spain, Ethiopia, Albania, Ireland or India. Instead, he confessed that Britain does not have and never has had any desire to liberate the oppressed German people or the nations whom Chamberlain turned over to the brutal mercies of German Fascism.

Why is Britain at war with German Fascism, then? Listen to what Halifax says in

"The success of any conference depends on the conditions for its meeting. The conference method was followed in September, 1938 (at Munich). We were willing to fol-

low it again immediately before this war....
"Why in fact did not the Munich conference secure lasting peace in Europe? An agreement was reached and the most solemn assurance given. But only six months later Hitler changed his mind."

This utterance, made two days ago, is of tremendous significance to the millions of Americans who are now being subjected to the gigantic hoax over Finland. It reveals what is really behind the Finnish provocations and the Soviet Union's defense. For, what does it say?

It says that Britain is at war with Hitler not because of the victims of Fascist tyranny. On the contrary, Halifax brags that Britain gave Hitler these victims at Munich, and WAS WILLING TO GIVE HIM MORE AS LATE AS SEPTEMBER THIS YEAR.

But what happened instead? Halifax says Hitler broke "his solemn assurance." Now we get down to cases. What exactly was his "solemn assurance" which Hitler "broke six months later"?

Halifax doesn't dare to tell the world what it was. If he did it would shatter the whole fraud of the present propaganda about the Soviet Union's alleged "aggression." That "solemn assurance" which Hitler gave Halifax at Munich was his pledge to drag all the nations of the world into a ghastly slaughter against the Soviet Union. Hitler was supposed to start it by dragging the Baltic states, Poland, Roumania and Finland into this war as rapidly as possible.

Stalin's Non-Aggression pact put a stop this "solemn assurance." The Soviet Union was too strong.

And that is exactly why the Finnish generals and capitalists were then instructed to carry out their present assigned job of trying to do what Hitler had failed to do-to light the fires of an anti-Soviet war in which the boys of England, France, Germany, America, and the rest would die miserably and futilely.

Could the fraud of the capitalist sympathy for "little Finland" be any plainer? The betrayers of Czechoslovakia, Spain and Austria could no more have any real sympathy with the Finnish people than the cannibal has for his victim.

Our own American war-mongers are wise to this war scheme. They want to get the American people into it.

Yesterday morning, the New York Herald Tribune's cartoon comments sadly on the fact that "Allied Power" and "German Strength" are locked in struggle, instead of eing united in a war against the Soviet

The New York Times hints editorially that the Soviet military defense of its borders in Finland gives Nazi Germany and Fascist Italy a bond of "universal sympathy" with America against the Soviet Union.

They still want a united war front with the German reaction. All they insist on is that German imperialism "keep its word"that it will carry out the original plan for anti-Soviet war over the corpses of the small

nations of Europe and the Baltics. The moral propaganda over the "little" Finnish ruling cliques is merely the loud noise intended to drown out this grim behind-the-scenes war scheme into which the American people are being drawn. Halifax's speech is a confession of this bloody scheme.

A Wall Street Bandit Before the 'Bar of Justice'

The solicitude with which Wall Street plunderers of the people are handled before the bar of Justice, is indeed touching.

Take the case of one Stephen Paine, former employer of Rep. J. Parnell (Feeney) Thomas of the Dies Committee. Paine has just been found guilty of looting an investment trust and bringing about a million and a quarter dollar loss to the small investors. When Paine was first indicted, United States Attorney Cahill asked for a mere \$5,000 bail -compared with the \$7,500 that he demanded in the case of Earl Browder. But the climax came when the jury brought in a verdict of guilty. It just about broke the heart of the judge to have to send Paine away to prison.

For a crime involving a million and a quarter dollars, Paine was sentenced to exactly one year and a day. And the only reason the sentence was this big, if we are to believe the New York Times, was that a lighter sentence would have sent Paine to the "small and crowded house of detention."

Of course, this would have been terrible and would clearly have been no way to treat a blue blood of Wall Street. So, according to the Times, which writes of Paine with reverence, he "will be sent to a more spacious prison, probably the modern one at Lewisburg. Pa. Inmates there have better opportunity for exercise and activity than those in the local jail."

A starving, desperate man who steals a loaf of bread is often treated in the courts like a murderer. But the Paines. Whitney's and similar bandits, are treated as if they were noble characters who stepped out of a Shakespearean tragedy.

Who Is Crazy Now?

A crowd of 5,000 "psychopaths" tried to get jobs yesterday at the city's Sanitation Bureau. The word comes from the New York Post, which declares: "It must be the psychopathy of unemployment." The men want work and refuse to take "No" for an

So that's how it is now. If you're unemployed and hungry, you're crazy.

Come to think of it, the Post may be right, but not in the way it thinks it is. What could be crazier than a social system which forbids men the right to work just because a handful of parasites say "No"? We thought that the majority was supposed to decide its own fate under a democracy.

The Anti-Union Drive Picks Up Speed

The anti-union drive of the Department of Justice is taking on steam.

Just as the first indictments are handed down-against two A. F. of L. building trades unions in Detroit-certain elements among the employers in the men's clothing industry, become enraptured by a vision of similar prosecutions against the CIO Amalgamated Clothing Workers.

According to the Daily News Record, a trade publication, these employers are speculating on the possibility of having the Amaluted in order to brea certain safeguards that have been won against speed-up and run-away shops. '

The fact is, open-shoppers and sweatshop employers in all industries are beside themselves with joy at the action of Attorney General Murphy and will soon be driving for presecutions in every field.

The anti-union campaign of the Department of Justice leaves no shred of doubt as to the real meaning of the present attack by the same department against the Communist leaders. Murphy does his best to hide the link between the two drives. But both are planned by the same Mr. Murphy, although they are carried out by various assistants. And both have the same purpose: to place a keg of dynamite under civil liberties and the rights of labor just as was done in the last war. The infamous Palmer Raid Days of 1917-20 are here again.

The War for Freedom

"The Duke of Windsor has not been near the lines and will not be permitted to go near them. Instead, he has been given an extra heavy assignment of reviewing troops."---Hearst's Journal-American.

"If you know the Duke and Duchess of Windsor and want to cable them Christmas greetings, address them in care of the Chateau De La Croe, Cape d'Antibes, Alpes Maritimes, France. The Duke has been granted a holiday leave from his military dus beginning Dec. 15."-Society Notes, Journal-American.

Wall St. Anti-Soviet Cannonade by Gropper

When Chamberlain Wants To Use the League of Nations

It was expected that when the Soviet Union took steps to wipe out the hot-bed of imperialist war and anti-Soviet provocations in Finland that the imperialist jackals would howl. And so they have on schedule.

Accompanying their howls have been numerous provocative acts, the latest of which is the convoking of the League of Nations Council to settle the alleged "state of war" between Finland and the Soviet Union. They even had the audacity to insult the great Socialist country by inviting her to discuss such a preposterous question.

But Premier and Foreign Commissar Molotov contemptuously nailed this provocation in his reply to the League, saying:

"The Soviet Union is not in a state of war with Finland and does not threaten the Finnish people with war. Therefore reference to Article 11, Paragraph 1, of the eague of Nations Covenant is incorrect. The Soviet Union is in peaceful relations with the Democratic Finnish Republic, with whose government it concluded on Dec. 2, a treaty of mutual aid and friendship."

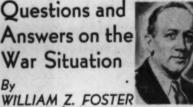

Molotov stated further in refusing to take part in the meetings that "the report of League of Nations General Secretary ... reproducing the text of the insulting and slanderous letter of M. Holsti (Mannerheim-Ryti representative.-Ed.), is clearly incompatible with the requirements of proper respect for the Soviet Union."

This state, is, of course, too painfully and simply true for the intriguing war-mongers

So with the British imperialist Chamberlain in the dominant role, the League is to be suddenly brought to life. And not for the purpose of eliminating the anti-Soviet war danger symbolized by the Mannerheim-Ryti hangmen, but to strengthen this war danger and to overturn the new People's Democratic government—the only government which has a right to represent the Finnish people.

When the fascist aggressors invaded Ethiopia, Spain, Czechoslovakia, Chamberlain and Daladier chloroformed the League. But now that the Soviet Union acts to save her own security and in behalf of world peace, Chamberlain finds use for it.

Questions and Answers on the War Situation

The Daily Worker presents today the second of a new feature, "Questions and Answers on the War Situa-tion," by William Z. Foster, National Chairman of the Communist Party. Readers are invited to send their questions to the Daily Worker for answers.

Question—Shouldn't the workers accept the lesser evil in the present war by supporting the Allies? Is it not better that democratic England and France should win the war than fascist Germany? Answer—The war between the Allies and Germany

is a struggle between rival imperialist powers for the mastery of the world; hence the workers have no in-terest in supporting either group in the contest. Should one or the other of these two sides win the war it will try to cut the other to bits at the peace table, no less than it did on the battlefield. There is no reason to suppose that the Allies in victory would be more just or democratic than Germany would. In 1918, the Germans forced the infamous Brest-Litovsk treaty upon the Russians, and the Allies at the conclusion of the last great war were equally criminal with their Versailles Treaty which enslaved the German people, despoiled Soviet Russia and sowed seeds of the present conflict. We may be sure that when the present war ends, if the "democratic" British and French imperial-ists get the chance to write the peace treaty, they will be even more ruthless than they were in 1918. The Chamberlains and Daladiers, who are now rapidly fascizing England and France, represent the great capitalist interests of their countries, as Hitler does in Germany. In all events, they would seek to main-tain decaying capitalism, with its increasing mass mis-ery, crises and recurrent wars. They would set up such an international system of oppression as the world has not yet seen.

The interest of the workers and other toilers, there

fore, is not to line up with one side or the other in the war on the ground that this side represents the "lesser evil." On the contrary, their task is to organize their own forces and defend their own cause. The only possible just peace will be one dictated by the toiling masses of the world, one which will take the war-making power out of the power of the capitalists. In the last war the masses in one-sixth of the earth, Czarist Russia, did not accept the alternative of the lesser eveil, but, taking their fate in their own hands, set up the Soviet Government.

In order to prepare to work out a lasting peace the workers must now protect their living standards and civil rights; build the trade unions and other mass organizations; organize a broad people's front of workers. farmers and professionals with which to win control of and democratize the government; join forces with the democratic masses of all other countries and sup-port the peace lead of the S-viet Union, spokesman of the world's laboring masses; and, lastly, educate the masses for the only final cure of war and exploitation, Socialism. The Social Democrats and other "labor leaders" who are seeking to enlist the workers on the side of the Allies around the will-o-the-wisp slogan of the "lesser evil," are giving just one more illustration of the fact that they are agents of the capitalist class.

Question-Why did Winston Churchill oppose the Munich pact? If he is against Russia, as you say, should he not have been for Munich?

Answer—The Winston Churchill-Anthony Eden-

Alfred Duff Cooper group, in their former opposition to Prime Minister Chamberlain, represented that sec-tion of the British capitalist class which first became convinced that Chamberlain's appeasement policy was a failure and that Hitler could not be induced, at least not for the time being, to send his legions against the powerful Soviet Union (while England stood aside and profited from the war), Churchill and his friends were quicker to see that for Great Britain to further its imperialist interests it had to come to grips with Hitler. Hence their lack of enthusiasm for Chamberlain's ap-peasement policy, which was building up Hitler and the culmination of which was the infamous Munich

The Churchill people, however, were quite in agreement with Chamberlain's basic policy of trying to use the U. S. S. R. as a satspaw to pull British imperialism's chestnuts out of the fire by involving the Soviet Union in a war against Germany. It was this latter plan, not a genuine international peace front, that they had in mind during the British-Soviet neg The anti-Soviet attitude of the Churchill f been clearly evidenced since the outbreak of the war by his denunciation and hostile actions against the Soviet Government. Long ago Lenin properly charac-terized Churchill when he said, "This man hates Soviet Russia with all his heart."

Socialism Not Stymied By Machinations of Its Enemies'-New York City.

Have you noticed how profoundly concerned and tearfully touched the editors of the New York Times have become over the "plight" of the workers of Finland? Shameless hyprcrisy!!! The crass tone cynicism and mockery in their rare bubble of comp sion for the masses betrays their hollow sincerity! Is it unreasonable to suggest these copious tears are, in truth, being shed for the reactionary Finnish ruling class? Happily, there are workers unable to weep with them as the Red Army smashes to smithereens the craftily concealed anti-Soviet war intrigues of a nefarious Finnish governing clique.

May I point out to those who are ready to condemn the Soviet Union that they are hastily assuming the role of headline-mentality dupes upon the cunning inspiration of the capitalist press? Are the opinions which this capitalist press are so anxious to mould in consonance with workers' interests? Judging from past performances, the answer is unmistakably—NO!!
No worker must permit himself to be deceived in this manner. The truth alone must be judged.

War has broken out in Europe, independent of any action by the Soviet Union. The U. S. S. R. is vitally concerned in the localization of the conflict. When the Baltic countries of Estonia, Latvia and Lithuania aided in achieving this aim peacefully, the result was a mutually satisfactory, friendly agreement. When similarly approached by the Soviet Union, the Finnish ruling clique replied by mobilization of its armed forces. The U. S. S. R. is now demonstrating that socialism will not be stymied by the machinations of

Let all true friends of the working class remember these salient, all-important facts before making their decision on the action of the Soviet Union. M. B.

The Capitalist Press Has A Short Memory-

New York City. Editor, Daily Worker:

The capitalist press seems to be in a great rage over the Soviet claims against "tiny" Finland. gentlemen have a conveniently short memory. seem to have forgotten that a few years ago Pinland, in joyful anticipation of an invasion of the Soviet in joyful anticipation of an invasion of the Soviet Union by the combined forces of Germany, Poland, Rumania, Esthonia, Latvia, Finland and Japan, crowed about the possibility of extending Finland's domain to the Urals. Because the Nazis decided that the path of least resistance led elsewhere and bitterly disappointed the bourgeoisie of the world in general and the Finns in particular, it ill becomes the Finns to pleas that they have no aggressive intentions against

The Soviet Union's brilliant diplomacy has given it the golden opportunity to pull the teeth from the ravenous gentlemen and render them harmless. bourgeoisie of Esthonia, Latvia and Lithuania have wisely submitted to this extraction and have con-

sequently removed the danger of war in that area, while at the same time retaining their sovereignty as independent nations. The Finnish ruling class on the independent nations. The Finnish ruling class on the other hand—about as concerned for the welfare of their people as the Woodrums are about the American people—being anxious to preserve a future channel of invasion against the Soviets, refused to close the Gulf of Finland and Bothnia to this potential danger.

No amount of lying by the capitalist press will hide the fact that the Soviets offered Finland twice the amount of territory they would cede to the Soviets for the construction of naval bases. A fortified Hango peninsula is as vital to the defense of the Soviet Union as the Panama Canal is to the United States. British and American capitalists, behind the pretense of seek-ing a peaceful solution, have goaded the Finns on. The boys, however, are due for a shock.

When Cuba sought to throw off the yoke of Yankee imperialism Mr. Roosevelt who is so concerned about "independence" of the Finnish white-guards—to op-press their own people and follow inperialism's orders —promptly dispatched a fleet of ships that completely ringed the island and helped our bankers to maintain their financial hold on Cuba. Shades of the murdered Sandino, but the American capitalist press has a short memory!

Strange Career of 'News Commentator' as Typified By Mr. Gabriel Heatter By MIKE GOLD

ONE of the most voluble anti-Communists making propaganda these days over the radio is Gabriel Heatter. He was also quite a valiant anti-New Dealer in those dear, dead

Mr. Heatter has worked as "news commentator" for many business firms. I do not think he is very bright. Even over the ether you get the impression of a petty suburbanite over the ether you get the impression of a petty suburbanite Napoleon who runs one of the smaller advertising agencies, thinks Dale. Heatter is supposed to be an authority on foreign affairs. I do not believe he could draw the Dardanelles on a map, or explain the policies of Bismarck. Iake Will Rogers, he might say if he were as modest, that he only knows what he reads in the napers.

How does such a man climb into the position of "foreign expert"? It is such a man merely decides that since there are no other jobs around, he will become a "news commentator" on foreign affairs. So he prints some fancy cards that are engraved: "Gabriel Heatter, Distinguished Author, News Commentator and Foreign Expert."

This is his diploma. Then he plans a campaign. He meets this influential radie, man, and the other. He wears his most impressive hanker's suit at the Young Playsopers Theater in radic man, and the other. He wears his most impressive banker's suit and a pince nez. And he uses salesmanship on them. And that's how these things are done, children. I have nothing against it; it is the way of the business world, and if I had been born with the gall, I might try it myself. I hope you will try it sometime, too, if you can muster the gall, and want a job as foreign expert.

Anyway, what I really started out to say was, that I accidentally tuned in on Mr. Heatter the other night, and listened to him sing his nighly hymn of hate against the Soviet Union.

It was a rather clumsy performance, since in the last year or so, Heatter has taken to imitating the gruff, authoritative military style of that other phony, Boake Carter. Mr. Heatter is not very successfully imitate the arrogance of a British lower-class snobster. It takes generations to breed a really good Junker, British or otherwise. not yet set into our bones.

Well, I was appraising this performance by Mr. Heatter, and remarking to myself how cut-and-dried it was, like those testimonies by religious converts along the Bowery who are called "mission-stiffs," and who come to Jesus every night in a routine confession that earns them a

poor supper and a poorer flop.

Mr. Heatter was just too darned pure, moral, patriotic, flag-waving and holy for my more earthly taste, nor was he plausible. If a man wants to love Jesus, he has a right to. But I think he should do it quietly, and not protest too much, religion being such a private affair, I think, If a man wants to hate the Soviet Union, he has that right

But hating the Soviet Union ought not make him feel that he is a Calahad er something. That is a horse of another color. While it is possible that a few really pure Galahads may be hating the Soviet Union these days, and feeling morally superior to that land of Socialism, so far as my own experience goes, I have not yet met one. Many of them seen just the usual run-of-the-mine labor fakers, cheap politicians, brass-check journalists, anti-New Deal Tories, Heartslings, clothing store proprietors, Coughlinites, salesmen for inferior rubber goods, and what-

Mr. Heatter certainly is no saint or Galahad. As I was saying: he droned along through his hymn. Then he ended and really began to perk up. His voice took on a new dramatic quality. A throbbing note of earnestness and truth entered it. If you were a dope, you might have really believed the guy sincere.

For Mr. Heatter was now delivering his plug for his sponsor.

And he put everything into it. But what to you think he was plugging, after having condemned those "immoral and godless Societs?"

He was talling the

He was telling the poor people of America that the way out of their troubles was to visit a loan shark. "It is a pleasure for us to lend yo money. We do not consider that we are doing you a favor; we yo money. We do not consider una we marrassing questions; kindly like to be of service. No red-tape, no embarrassing questions; kindly like and plous as only friendly understanding and help," and so forth, oily and pious, as only

Have you ever had to visit the loan sharks? I have; and I know they are "kind" enough to drag as much as 50 per cent out of the poor devils who must borrow from them. It is one of the scandals of American life, and sooner or later will have to be suppressed. These are the Galahads for whom Mr. Heatter figths his nightly battles against the Soviet Union, where there are no loan sharks.

There is great beauty, wit, passion, and almost constant delight in the Hamlet of Mr. Evans. Mady Christians is aplendid as the unhappy queen, Katherine Locke makes the most of her difficult role as Ophelis and the ghost of Hamlet's father is nobly portrayed by John Barelay. The Polonius of Raymond Johnson, amusingly con-Raymond Johnson, amusingly con-ceived, lacks the clarity of diction which distinguishes the more con-ventional playing of Henry Ed-ward's King. The lovesscenes be-tween Hamlet and Ophelia and Hamlet's scene with the queen in her chamber are outstanding for tenderhess and beauty, incompar-ably fine. The sets are suggestive and the direction by Margaret Webster has great vigor and drive, with a minimum of posturing and with a minimum of posturing and mouthing. Although the four-hour performance, which begins at 7.30 has moments of flatness, the whole unstinted abundance of Shakespeare's genius makes an evening spent with Maurice Evans' uncut Hamlet a jewel for the memory.

All-American Track Football Team

By Lester Rodney HIMME

The "Amateur Athlete," monthly publication of the AAU, has come up with a novel All-American football team, composed of grid stars who have made their mark in track as well.

The ends are Woody Strode of UCLA, a 51 foot shot putter when he isn't busting up interference or catching Kenny Washington's passes, and Archie Harris, Indiana's fine Negro player who tosses the discuss 164 feet. Phil Gaspar of USC, a 158 foot discus thrower, and big Millard White of Tulane, 160 footer with the plate, make a great pair of tackles. The guards are Tulane's Bill Kirchem, who steps the furlong in 21.4-which will help Lou Little understand how he pulled out of the line so fast to lead the interference on those Tulane sweeps that wrecked Columbia-and Phil Perkins, 174 foot hammer thrower from Bowdoin. Stan Anderson of Stanford is the center and he's reaved the shot no less than 54 feet!

The backfield is a honey whether you want to look at it from a fotball or track viewpoint. John Mac-Laughry of Brown, Elmer Hackney of Kansas State, Bob Peoples of USC and Jackie Robinson of UCLA are the boys. Peoples, a smashing fullback for the Trojans, set an American javelin throwing mark of 234 feet and 17 inches last year. Hackney, another powerhouse back, smashed the American shot put record with a heave of 55 feet 11 inches. McLaughtry, a fine allaround back, can heave the hammer a walloping 180 feet, while young Robinson, one of the football finds of the season has been broad jumping 25 feet and coming fast as a record threatening sprinter in addition to being a breath-taking shortstop on the baseball team. Jackie's a sophmore—give him a chance.

Saturday, by the way, four members of this trackfootball team will find themselves on opposite sides of the scrimmage line in a game that will decide the Western entry in the Rose Bowl game. That'll be Strode and Robinson for UCLA against Peoples and Gaspar of USC. It's going to be a whale of a game. If USC hadn't already had its inevitable letdown after the Notre Dame victory against Washington-just nosing them out 9-7-I'd take a flyer on the underdog UCLAs to turn in an upset. As it stands, I like the Trojans-with or without Gaspar's discus shield and Peoples' Javelin spear. They have too many Lansdells and Schindlers and Naves for the embattled UCLAns.

To leave the 3,000 miles away experting for the moment, it seems that pro football referee Ed Halloran rates a bit of a bow. For his unhesitating call-'em-as-I-see-'em decision on the Red Skin place kick that decided the championship Sunday. It took some guts out there in that tension, "trivia" or no. And for his report yesterday denying that Red Skin back Justice had swung at him after the league president's statement that the player would be barred from the game and fined. fine and suspend a player in pro football you're not hurting his college spirit, but his bread and butter money, and that's what Halloran, who did take a quick moment of roughing around in the excitement and disappointment of the Red Skins at the moment, knew in turning in his report. That one was right between the bars anyhow.

Scarsella Goes to Bees for Veteran Hurler

CINCINNATI, O., Dec. 6 (UP).-Pirst major league deal of the anual winter br seball meetings was made today when the National League champion Cincinnati Reds traded first baseman Leslie Scarsella and cash to the Boston Bees for Jim Turner, veteran rightnanded pitcher.

Turner thus comes back to Bill McKechnie, the man who developed him into one of the sensaions of the 1937 season. Turner ame up with Lou Fette from the American Association in 1938, and despite the fact that both were past 30 they each won 20 games. Turner also becomes a teammate of Ival Goodman, who hit a line ner in the face, breaking his nose and putting him in the hospital for a lengthy sojourn. Last summer Turner pitched in 25 games and had a record of 4 won and 11 lost for a percentage of 267.

Scarsella, who had no chance to break into the Reds' line-up with Frank McCormick playing first, played in only 16 games last season, making 2 bits in 14 times at hat ner in the face, breaking his nose

making 2 hits in 14 times at bat for an average of .143. The Bees are expected to play Scarsella at first and shift Buddy Hassett, who held down the first base post last season, to the outfield.
